LIFTKET HOFFMANN GMBH

LIFTKET Hoffmann GmbH is an internationally renowned manufacturer of electric chain hoists with loads ranging from 125 kg to 25,000 kg. At the company premises close to Leipzig, Germany, currently about 250 employees, design, develop and manufacture lifting solutions for three business areas: Industry, Custom and Stage. A strong global network of service and sales partners ensure customer-oriented stock-keeping, maintenance, and repair. LIFTKET manufactures modular electric chain hoists for virtually every application that involves the safe and precise lifting of loads.

Founded in 1948 by D. Hoffmann, the company initially developed agricultural equipment before specializing on electric chain hoists since 1953. Hoffmann's innovations, namely the horizontal assembly of motor and gearbox and the patented safety-brake/clutch system, set the standard for electric chain hoists. LIFTKET is amongst the three global leaders the one who exclusively just focuses on serving specialists in the lifting industry and therefore not competing with them. Our Mission is to support our specialist with excellent products and strengthen them with competitive prices, technical and sales expertise so, our partners can earn their living with serving happy customers fast and efficiently.

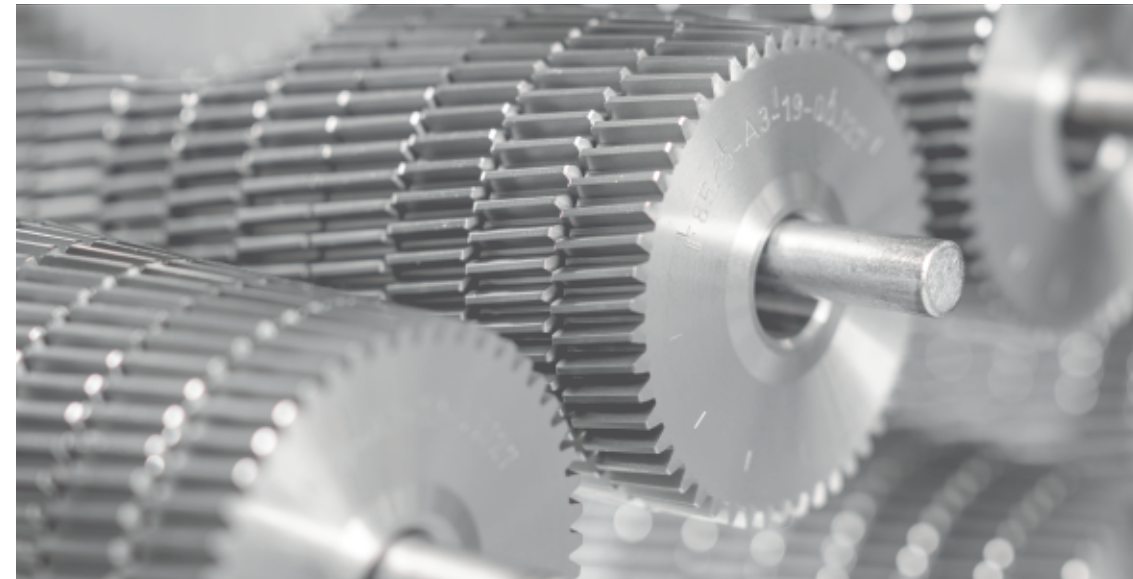

QUALITY „MADE IN GERMANY“

LIFTKET moves - safely and everywhere, and any load of up to 25,000 kg and 200 meters.

250 employees in the heart of Germany ensure that thousands of LIFTKETS leave our plant every month. Every single electric chain hoist was designed, developed, produced and tested here with sufficient load bearing capacity. A unique ID makes it possible to trace exactly when a particular electric chain hoist was built – and who built it with which materials - even after 10 years.

Numerous customers and OEM partners in over 65 countries rely on LIFTKET quality products. Safety, durability, ease of maintenance, service and a fair price/performance ratio are particularly valued.

A worldwide network of service and sales partners also guarantees short distances and fast availability of spare and wear parts. As early as 1953, we already focused exclusively on the production of electric chain hoists - for any conceivable application. A high vertical range of manufacture and almost limitless customization capabilities ensure that you can work just the way you want, be it with LIFTKET branding or OEM products, standardized series or individual solutions.

LIFTKET BENEFITS

LIFTKET not only supplies electric chain hoists for a wide range of applications. With us, you benefit from support from A-Z. Our dedicated team is on hand to provide you with qualified support in various areas.

LIFTKADEMIE

More Know-How with LIFTKET trainings

Maintenance work for hoisting equipment has to be carried out by trained and authorised professionals only. Authorised people must have theoretical training as well as experience in the field of cranes and hoists. They must have excellent know-how of the special regulations and must be able to decide whether the lifting equipment is in safe working condition or not.

Within the LIFTKADEMIE, the training participants are taught the know-how to ensure safe working with LIFTKET electric chain hoists.

INDUSTRY

LIFTKET electric chain hoists are used in almost every conceivable industry. Whether in the field of stonemasonry or in the food industry, in shipyards or in power stations - we enable safe, precise and reliable lifting of loads.

You tell us what you want to move - and we will develop the perfect solution.

The LIFTKET product portfolio includes standardised hoists that can be modularly adapted to your requirements as well as highly customised solutions. Larger load capacities and lifting heights are just as possible as and customised solutions of all kinds.

FEATURES

Load capacities from 80 kg to 25,000 kg

FEM ratings from FEM 1Bm to 4m (ISO M3 to M7)

Protection class IP55, insulation class F

Galvanised loadchain to DIN EN 818-7 quality class DAT

A wide range of options can be selected as standard

With one or two lifting speeds from 2 to 32 m/min

Electric limit switches for lifting and lowering as standard (at 24 V AC)

B13 | POWER LIFTKET

Customised electric chain hoists with extremely high load capacities of up to 25,000 kg.

STAR ONE

LIFTKETs in-house developed VFD. Works in any singlephase grid from 10 - 240 V, 50 and 60 Hz.

STAR LIFTKET Speedline

Tailor-made STAR LIFTKET with extremely short delivery time and equipped with **EASY CONNECT System**.

CUSTOM

Do you need it ultra-short? Extremely high? Super long? As fast as lightning? Or completely tailor-made? Then LIFTKET is the perfect choice for you!

Your individuality is our reality. Just watch your dreams come to life!

Many years of experience, first-class skills and our determination to take on any challenge enable us to provide customised solutions, even in series production. You benefit from the highest quality, innovative technology and comprehensive support from a one-stop shop.

Benefits

Wind Power Experience since 1980

Perfectly tailored to your requirements

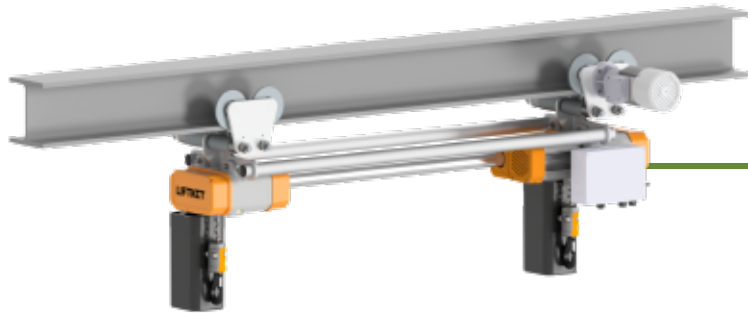

Plug & play solution for simplified installation

Worldwide technical support and availability of spare parts

Double Chain Solution

Chain hoist for synchronous lifting of long loads.

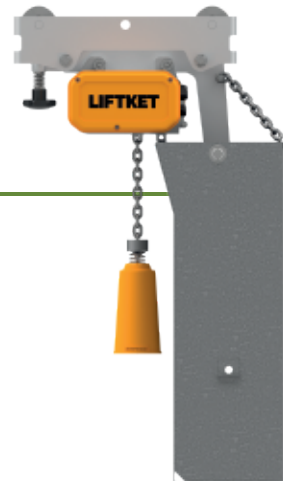

Power Pack

Twin chain hoist with incredibly short headroom.

Windpower

Tailormade solutions for windpower applications.

Short Headroom Solution

Flat chain hoist for maximum height of lift.

STAGE

STAGE is a leader in the entertainment world and offers a wide product range for lifting solutions for almost any stage application. With our three companies, you have worldwide contacts for the most diverse requirements in the event sector. From rigging to high-end automation – our LIFTKET

Entertainment Group offers you state-of-the-art products, know-how from planning to installation and a dedicated after-sales service. With us, you only get the best of the best

Entertainment Products

STAGE Medium

Load capacities up to 500 kg in D8Plus.

STAGE Small

Load capacities up to 250 kg in D8Plus.

STAGE Large

Load capacities up to 1000 kg in D8Plus.

MOVEKET offers a cutting-edge range of products designed to take your projects to new heights. Stay ahead with state-of-the-art technology, keeping your projects at the forefront. With our MOVEKET Team you're in expert hands from technical support to project completion.

With tens of thousands of chain hoists sold worldwide, hundreds of big-name users and too many applications to count, CHAINMASTER is a world leader in the development and production of chain hoists adapted to the rigours of day-to-day stage use. We offer electric chain hoists according to D8 and D8Plus standards and C1 SIL 3 systems that can be tailor made for your projects.
